

FIRE AND SMOKE DOOR INSPECTIONS

June 16, 2022 | 9:00 – 11:00 AM | Skilled Nursing Emphasis

COURSE OVERVIEW

Since January 2018 surveyors have been enforcing the requirement for healthcare facilities to inspect, test and maintain fire and smoke doors. The 2012 Life Safety Code expects all healthcare organizations to be compliant with the requirements including the NFPA 80-2010 edition, which requires all fire-rated door assemblies to be inspected annually.

During this presentation we will review the requirements for annual inspections and review the qualified training necessary to complete the fire door inspection and provide facilities the necessary documentation tools to complete these.

REGISTRATION INFORMATION

\$39 per facility WHCA Member Rate
\$78 per facility Non-WHCA Member Rate

You may have as many people join in as you would like— one phone/computer may log in per registration! Please register only one person for the webinar unless a second individual plans to log in from a separate location.

Login and dialing instructions will be emailed on the day prior to the webinar.

Two CEUs will be granted to each individual who completes the live webinar presentation.
